The legality of Library Genesis has been in question since 2015 because it allegedly grants access to pirated copies of books and paywalled articles, but the site remains standing and open to the public.

Australia In The Global Economy

Australia is a relatively open, trade-exposed economy. This means that changes in other countries' demand for our goods and services can have significant implications for our economy. For example, an increase in global demand for Australia's exports, if not matched by an increase in supply, will result in an increase in the price of those exports.
