At its core, your business model is a description of how your business makes money. It's an explanation of how you deliver value to your customers at an appropriate cost. According to Joan Magretta in "Why Business Models Matter," the term business model came into wide use with the advent of the personal computer and the spreadsheet.

What is a Business Model? Business Models Explained

The authors of Business Model Generation explain, 'a business model describes the rationale of how an organization creates, delivers, and captures value'. They not only suggest a simple visual way of breaking down the initial idea into a 9-component canvas but also capture the 5 patterns of today's online company dynamics.

5 Business Model Patterns for Online Enterprise | CodeTiburon

The Business Model Mixer pointed at various elements that make up business model change. For value propositions, we found that many new business models aimed to decrease the time before the client sees the value of advice. Instant consulting is the extreme here: it occurs when consultants deliver tangible benefits from day one.
