IxNetwork - Ixia provides application performance and security resilience solutions to validate, secure, and optimize businesses' physical and virtual networks.

IxNetwork - Ixia

Plant your ixias in full sun and in areas that are sheltered from high winds. Dig holes and place the bulbs about 4" apart and with their tops 4" below the soil surface. Place bulbs so the slightly pointy end faces upwards. After planting, water well, gently soaking the soil and settling it around the bulbs.

Ixia Planting Guide - Easy To Grow Bulbs

To install the official release just run `pip install --upgrade ixnetwork`. To install the version in github use `python setup.py develop` for development install or `python setup.py install`.
