Technic pieces can be integrated with standard Lego but are so diverse that they're a whole range of building pieces in their own right. Technic tends to be for older children and adults and is better suited for making complex engineering models. Technic pieces can easily be integrated with Lego motors or Lego Mindstorms to create your own powered vehicles or working robots.

Technic motor 2838 is a real power hog, with poor efficiency, but it can deliver 30% more power than Minimotor. Minimotor 71427 is probably the best performer of the pack overall. The new 43362 is roughly equivalent to 71427, with slightly degraded performances. But its light weight can be a boon for many uses.
