### Category:Locomotive manufacturers of the United States ...

The early boxcars are often credited as the first with a diesel engine although the very first railcar to utilize an internal combustion engine was the McKeen Car. In Brian Solomon's book, "The American Diesel Locomotive," the idea for this concept came from William McKeen, Union Pacific's chief of motive power. Even by the early 20th century railroads were attempting to cut costs on lightly patronized branch lines and UP's leader, the legendary Edward Harriman, approached McKeen in 1904 ...
