J WOLFE SENSATION AND PERCEPTION 3RD EDITION

Sensation & Perception, Fifth Edition introduces students to their own senses, emphasizing human sensory and perceptual experience and the basic neuroscientific underpinnings of that experience. The authors, specialists in their respective domains, strive to spread their enthusiasm for fundamental questions about the human senses and the impact that answers to those questions can have on medical and societal issues.

[eBooks] Sensation And Perception Wolfe 3rd Edition

Sensation and perception are two separate processes that are very closely related. Sensation is input about the physical world obtained by our sensory receptors, and perception is the process by which the brain selects, organizes, and interprets these sensations. In other words, senses are the physiological basis of perception.

Yet dark adaptation is an important principle discussed in most standard textbooks of neuroscience and sensation/perception (e.g., Wolfe et al., 2011; Kandel et al., 2012). Dark (and light) adaptation is a crucial ability of the eye that allows the visual system to function over light intensities that vary by many orders of magnitude.
