The Engine Compartment Lamp, frequently called an Under Hood Light, was an option on these trucks. It contains a mercury switch so it comes on when the hood opens, and the bulb is in a magnetic carrier and on a 20' retractable cord so it can be used pretty well anywhere on the truck. On top of that, the trucks came pre-wired for the light as the connector marked 14401 in the illustration is already there near the brake master cylinder, and is the gray connector with the light green/yellow ...
